MEMORANDUM FOR CHAIRMAN EDAC/WG-1

SUBJECT: IML Items

Attached are proposals for IML Items 1-18 recommended by TTG-J, Systems and Munitions, for forwarding as CoCom proposals. These proposals address liberalization of IML coverage as it relates to the Peoples Republic of China.

The enclosure contains five attachments. Attachment A lists the accepted CoCom wording implementing an AEN review and listing procedure. Attachment B contains the wording of a proposed SOU for "Safeguard Provisions." These provisions provide for selective reversal of liberalization measures on an IML item basis to allow for a measured and flexible response. Attachment C provides the complete text of the TTG-J recommended US proposals for IML items 1-18 and a discussion of the US position. Attachment D provides a summary matrix of the TTG-J recommendations and Attachment E, a discussion of negotiating alternatives for IML Items 9, 10 and 16.

These items were coordinated with DUSD/TSP on 18 June, 1986. I recommend an early scheduling of WG-1 to address these items so that submission to CoCom can occur prior to 31 August 1986.

Raymond F. Siewert
